DEFINITION			
<i>Name</i>	Data Exchange Software/Utilities		
<i>Description</i>	Data Exchange Software and Utilities are defined as those that facilitate the exchange of data within the enterprise. This exchange can pertain to batch or real-time processes.		
<i>Rationale</i>	Standardizing Data Exchange Software and Utilities ensures the various State of Missouri Enterprise systems implementations can interpret communications received from other sources.		
<i>Benefits</i>	<ul style="list-style-type: none"> • Reduces the number of different products to support • Allows the State of Missouri to leverage buying power on product licensing and support.
